SUMMARY

4+ years of experience in the frontend development. Delivered initial versions of 6 products, primarily in Agile environments. Excel at turning complex challenges into scalable, responsive solutions. Passionate about creating meaningful products that blend technology and human insight.

EDUCATION

Université de Lille

Licence MIASHS, parcours MEF

Lille, France

Sept. 2023 – July 2026

SPbSTU (Polytechnical university)

Business informatics

Saint-Petersburg, Russia

Sept. 2021 – June 2023

EXPERIENCE

Frontend Developer

Jan 2025 – Apr 2025

Contracting. Main developer on these projects

Remote

- [Munk](#) – Implemented in-browser recording ([POC](#) version), with chunked upload before stop; used Plyr for playback, custom React hooks for media capture
- [PeerHub](#) – React telegram mini-app with TanStack Query, react-aria, and getjustd. Integrated HH.ru autofill (profession, company, region), infinite queries + Intersection Observer, View Transition API

Frontend Developer

June 2023 – Aug 2024

[Flatsharing LLC](#)

Remote

- Collaborated within an Agile Scrum team to develop a scalable rental service platform, creating over 23 adaptive, user-friendly pages using Vue3, Vite, and Nuxt to ensure a seamless experience across devices.
- Enhanced interactive map functionality with smart caching, boosting geo-point load efficiency by 40% and improving performance during high-traffic periods.
- Configured custom icon processing in Vite + Rollup to reduce build times and enhance resource handling through effective tree-shaking.

Full Stack Developer

Aug 2022 – May 2023

ProDDG, [Ivankov Lab](#) (Skoltech)

Remote

- Engineered a high-performance backend system for biological data, scaling it to support 600K records and achieving a throughput of 200 RPS on large requests (e.g., 200K+ mutations) with caching optimizations.
- Built 8 interactive pages with data visualization dashboards and filtering tools using Vue.js, providing researchers with accessible and actionable insights.
- Automated CI/CD workflows with GitHub Actions, streamlining the development process.

HACKATHONS

- 1st place at the Telegram Open Network hackathon ([Paris bootcamp](#), 2024)
- 2nd place at [FinoDAYS hackathon](#) (2022), part of the annual financial forum by the Russian Central Bank
- Semifinalist of McKinsey & HCC Case Championship (2022). Developed [product strategy](#) for a neobank

COURSES

- System Design – [Karpov courses](#) (2023)
- How to Develop a Product Your Customers Will Gladly Buy by Evan Zamesin (2022). [Certificate](#)
